Reason for Allowance

1. Claims 1-21, 23, 25-34 are allowed.

Claims 1 and 11 recite depositing a conductive material in a manner that simultaneously forms an empty region that is delimited by the conductive material layer and is open at the top end; claim 21 recites "forming a horizontal portion of the conductive material layer that extends on top of the insulating layer and beneath the covering layer"; and claims 30 recites "wherein the conductive material layer of the contact structure includes a top portion that extends on top of said insulating layer and the second conductive region extends on top of the top portion of the conductive material layer".

These features in combination with the other elements of the claim are neither disclosed nor suggested by the prior art of record.

Claims 2-10, 12-20, 23, 25-29, and 31-34 variously depend from claims 1, 11, 21, or 30, they are allowed for the same reason.
